

2018 DIRECTORY OF FORESTERS

**DNR & COOPERATING FORESTERS
SERVING WISCONSIN LANDOWNERS**

**WISCONSIN DEPARTMENT OF NATURAL RESOURCES
DIVISION OF FORESTRY
PUBLICATION FR-021-2018**

The Wisconsin Department of Natural Resources provides equal opportunities in its employment, programs, services, and functions under an Affirmative Action Plan. If you have any questions, please write to Equal Employment Opportunity Office, Department of Interior, Washington, D.C. 20240. This publication is available in alternative format upon request. Please call 608-264-6039 for more information.

2018 DIRECTORY OF FORESTERS

The 2018 Directory of Foresters lists:

- Foresters employed by the State of Wisconsin - Department of Natural Resources (WDNR) who provide professional advice and technical assistance to private forest landowners.
- Private enterprise foresters (consulting foresters and industrial foresters) who have signed a Cooperating Forester Agreement with the Department; these foresters are called **'Cooperating Foresters'**. Cooperating Foresters who provide assistance to private forest landowners comply with DNR forest management standards found in statutes, administrative rules, Department handbooks and manual codes. Cooperating Foresters must attend annual continuing education courses and file periodic reports with the Department.
- Other partners in the private forestry assistance network including the American Tree Farm System, Cooperative Development Services, University of Wisconsin Extension, Wisconsin Woodland Owners Association and Wisconsin Woodland Owner Cooperatives.
- A regularly updated list of DNR & Cooperating Foresters is available at: dnr.wi.gov; use search keyword **'forestry assistance locator'**.

IMPORTANT USER INFORMATION

The Department of Natural Resources presents this Directory with no intended guarantee or endorsement of any particular private consulting Cooperating Forester, their qualifications, performance or the services they provide. Further, no criticism is intended nor implied of private consulting foresters who do not appear in this Directory.

Many Cooperating Foresters belong to professional organizations and follow principles of professional conduct and ethics. When selecting and hiring a consulting forester, CHECK REFERENCES and look for those who are affiliated with or belong to professional associations such as the Wisconsin Consulting Foresters, Association of Consulting Foresters (ACF) or the Society of American Foresters (SAF), or certification programs that include a code of ethics.

Look for the Green Tier Cooperating foresters  within this directory. The Green Tier program celebrates and supports businesses and organizations that go beyond compliance. Wisconsin Consulting Foresters (WCF) is a participant in the Department's Green Tier program. To learn more about the Wisconsin Consulting Foresters Green Tier Charter, click here: dnr.wi.gov; use search keyword **'Green Tier'**.

For more information, you may also visit the following websites:

- Wisconsin Circuit Court: wcca.wicourts.gov/index.xsl
- Department of Agriculture, Trade, and Consumer Protection (DATCP): datcp.wi.gov to find complaints filed against a business; you can also file a complaint here: datcp.wi.gov; use search keyword **'complaint'**, or call: 1-800-422-7128

FORESTRY ASSISTANCE IS AVAILABLE

Why utilize the services of a forester on your property?¹

A professional forester will help you achieve your management goals, and will ensure that applied forestry practices enhance the future condition and value of your woodland. You are more likely to get the job done right.

Whether or not you choose to work with a DNR forester or a private consulting forester will depend upon the type of service, the complexity of the job and how soon you need help.

DNR Foresters are employed by the State of Wisconsin, and available to get you started with forest management. DNR Foresters also administer forest tax and cost sharing incentive programs.

Consulting Foresters serve or represent private landowners on a contract or fee basis, which the landowner pays.

Industrial Foresters are employed by wood-using industries that provide advice and assistance to private landowners to promote forestry practices approved by the companies for whom the work.

The following tables list the complementary services offered by public and private foresters.

Assistance / Services Offered by Service Foresters:

- Initial forest management guidance (woodland walk-throughs, clarification of objectives, office visits, publications)
- Brief to detailed written forestry plans that address sustainable forestry goals including timber, grasslands, wetlands, wildlife, endangered resources, recreation, soil erosion and other concerns
- Timber harvest advice
- General forest tax law information (MFL, FCL)
- Technical and administrative assistance for cost sharing programs
- Forest protection measures (fire, insects and disease)
- Tree and shrub planting plans and sources of materials
- Tree and shrub shipments from the state nursery and facilitation of county tree planting machine use
- Demonstrations to improve growth and value of immature forests
- Forestry education through conferences, school programs, public speaking and news releases.
- *As time permits*, timber sale marking (Limitations: DNR foresters must first refer all requests for timber sale marking to the Cooperating Foresters in this directory. If the private foresters decline to provide the service then the DNR Forester may provide assistance.)
- As workload permits, up to 24 hours (three working days) of service to a landowner per year
- Referrals to a private cooperating forester for more detailed services

Assistance / Services Offered by Tax Law Specialists include:

- Tax Law forest management guidance, which includes developing and updating management objectives, office visits and publications
- Brief to detailed practice plans to help clarify management practices
- Guidance to complete management practices and necessary forms
- Referrals to a private cooperating forester for more detailed services

Assistance / Services Offered by Tax Law Administration Specialists:

- Assistance in filling out forms
- Guidance on general program questions
- Natural Heritage Inventory (NHI) and archeological and historical searches for cutting notices
- Referrals to a private cooperating forester for more detailed services

Assistance / Services Offered by Cooperating Foresters:

- Acquisition and sale of forest lands
- Aerial photo mapping and interpretation
- Appraisals: land, timber, damage, trespass
- Arboriculture, Urban forestry, Shade tree appraisals
- Christmas tree management
- Cost Basis determination, Timber Tax counseling
- Environmental impact statements
- Forest Inventory and cruising
- Forest management plans
- Forest resource and economic studies
- Landscape planning
- Litigation and expert testimony
- Logging engineering
- Log scaling and grading
- Pest control
- Prescribed burning
- Recreation - planning and development
- Road location, design and construction
- Specialty product marketing
- Surveying and boundary establishment
- Thinning and pruning
- Timber sales: preparation, administration, bidding and contracts
- Timber stand improvement
- Tree planting and site preparation
- Watershed protection
- Wildlife management

¹ Parts of this section are adapted from UW Extension Forestry Facts No. 75, *Hiring a Consulting Forester*, by A. Jeff Martin, August 1994.

If you plan to sell timber, a harvest almost always generates more income when a professional forester assists with the set-up, marketing and selling and administration process. By using a forester, you will get what your timber is worth. During the timber harvest, a professional forester can periodically inspect the logging, one of the most critical steps in managing your woodland.

A consulting forester can offer a wider range of services than can most other foresters and can handle most jobs from start to finish. Or, they may handle only a part of the job if you so choose.

Consultants can provide services that may be prohibited from other foresters. For example, the Wisconsin Department of Natural Resources (WDNR) limits, by statute, the services their foresters provide to private landowners. When workload or work plans permit, DNR foresters can mark or designate trees to harvest **only if there are no Cooperating Foresters interested in working for the landowner.** The DNR refers all timber sale establishment (e.g. marking) requests to Cooperating Foresters listed in this Directory. If the private foresters decline to provide the service then the DNR Forester may assist with the timber marking, *as time permits. DNR Foresters cannot prepare or administer timber sale contracts or otherwise act as a landowner's agent.*

Public foresters may also have restrictions on the time they can allot to your forest management needs. In Wisconsin, DNR foresters can provide a maximum of 24 hours (three workdays) of technical service each year to an individual landowner, although workload may limit the available time to considerably less. DNR foresters may also have waiting lists of landowners seeking help, causing delays in service.

An independent, private consulting forester works for you, the landowner, and not for a timber buyer, wood-using firm, or the government. A consultant will serve as your agent in a variety of technical matters related to managing your woodland.

Although an industrial forester's first allegiance is to the forester's employing company, many offer high-quality assistance beneficial to landowners. It is to a forest industry's advantage to develop long-term relationships of trust where landowners want a firm to come back time and again to harvest their timber. To develop a lasting relationship, some companies offer comprehensive planning services and consistently good prices for timber they purchase.

Landowners, foresters and timber buyers must work together to achieve a well-managed forest. Both look at the project on your land from a different perspective. Your consulting forester looks out for your best interests and works hard to obtain top dollar and increase the future productivity of your woodland. However, some timber buyers may feel this pushes prices too high and profits too low.

As a landowner you undoubtedly want top value, and you should expect contract conditions meet your management goals and objectives. When you select a consulting forester the ideal choice is an individual or company that **both** landowners and timber buyers rate highly. **Reputable buyers work well with reputable consultants.**

SELECTING A CONSULTING FORESTER

When selecting and hiring a consulting forester, be sure to check the following:

- **REFERENCES!**
- Affiliations with professional associations (such as the Society of American Foresters, Association of Consulting Foresters² or Wisconsin Consulting Foresters³) whose members must meet education standards and adhere to a code of ethics
- Years and type of experience
- Education
- Fee structures (hourly, percentage, per acre basis)
- Insurance (liability, errors and omissions, workers compensation insurance)
- Availability throughout your entire project
- Willingness to practice *sustainable forestry* which integrates environmental, economic and social concerns
- Willingness to listen to your objectives
- Special skills your job may require, such as log scaling and grading experience
- Green Tier certification

The private consulting forester you choose to hire should serve you and represent your best interests in all matters concerning the management of your woodland. *Inclusion in this Directory does not imply an endorsement.* Make sure you have a written contract or a letter of agreement signed by both parties that spells out the working relationship in specific terms.

About Insurance

The Cooperating Forester Agreement requires program participants to carry workers compensation insurance for employees (but not owners or partners) in a forestry firm. Some Cooperators might also carry general liability insurance and errors and omissions insurance. See the definitions of insurance types, below. If insurance coverage is an important factor to you in selecting a Cooperating Forester, be sure to ask the firm for details about their insurance coverage.

- **Workers' Compensation Insurance**

Provides benefits, as specified by state law, to employees for work-related injuries or illnesses, regardless of who is at fault. Covered expenses typically include medical benefits such as doctor, hospital and surgical costs; related healthcare costs such as physical therapy; disability income benefits, including services such as vocational rehabilitation that help an injured worker return to work; and death benefits.

- **General Liability Insurance**

Protects business owners and operators from lawsuits alleging bodily injury or property damage.

- **Errors and Omissions Insurance**

Protects businesses against liability for committing an error or omission in the performance of professional duties. Errors and Omissions policies are designed to cover financial losses rather than liability for bodily injury or property damage.

² Requirements of The Association of Consulting Foresters of America (ACF) full membership include: Minimum of a B.S. degree in Forestry from an approved college. Candidate Member: 2 years of experience in practical forestry administration, management, or other special forestry classification. Full member: 5 years of experience in practical forestry administration, management, or other special forestry classification. A member's principal business activity must be forestry consulting work to the general public on a fee or contractual basis. Members may not have an economic interest in a timber purchasing or procurement entity. Members must be owners or partners of a forestry consulting firm, or salaried employees in one owned by an ACF member.

³ Requirements for Wisconsin Consulting Foresters (WCF) are similar to those of ACF, except that the WCF Code of Ethics requires members to decline service to potential clients if the land management being requested is not consistent with generally accepted sound forestry standards. <http://www.wi-consultingforesters.com/index.htm>

How Much Does It Cost To Hire Consulting or Industrial Forester?

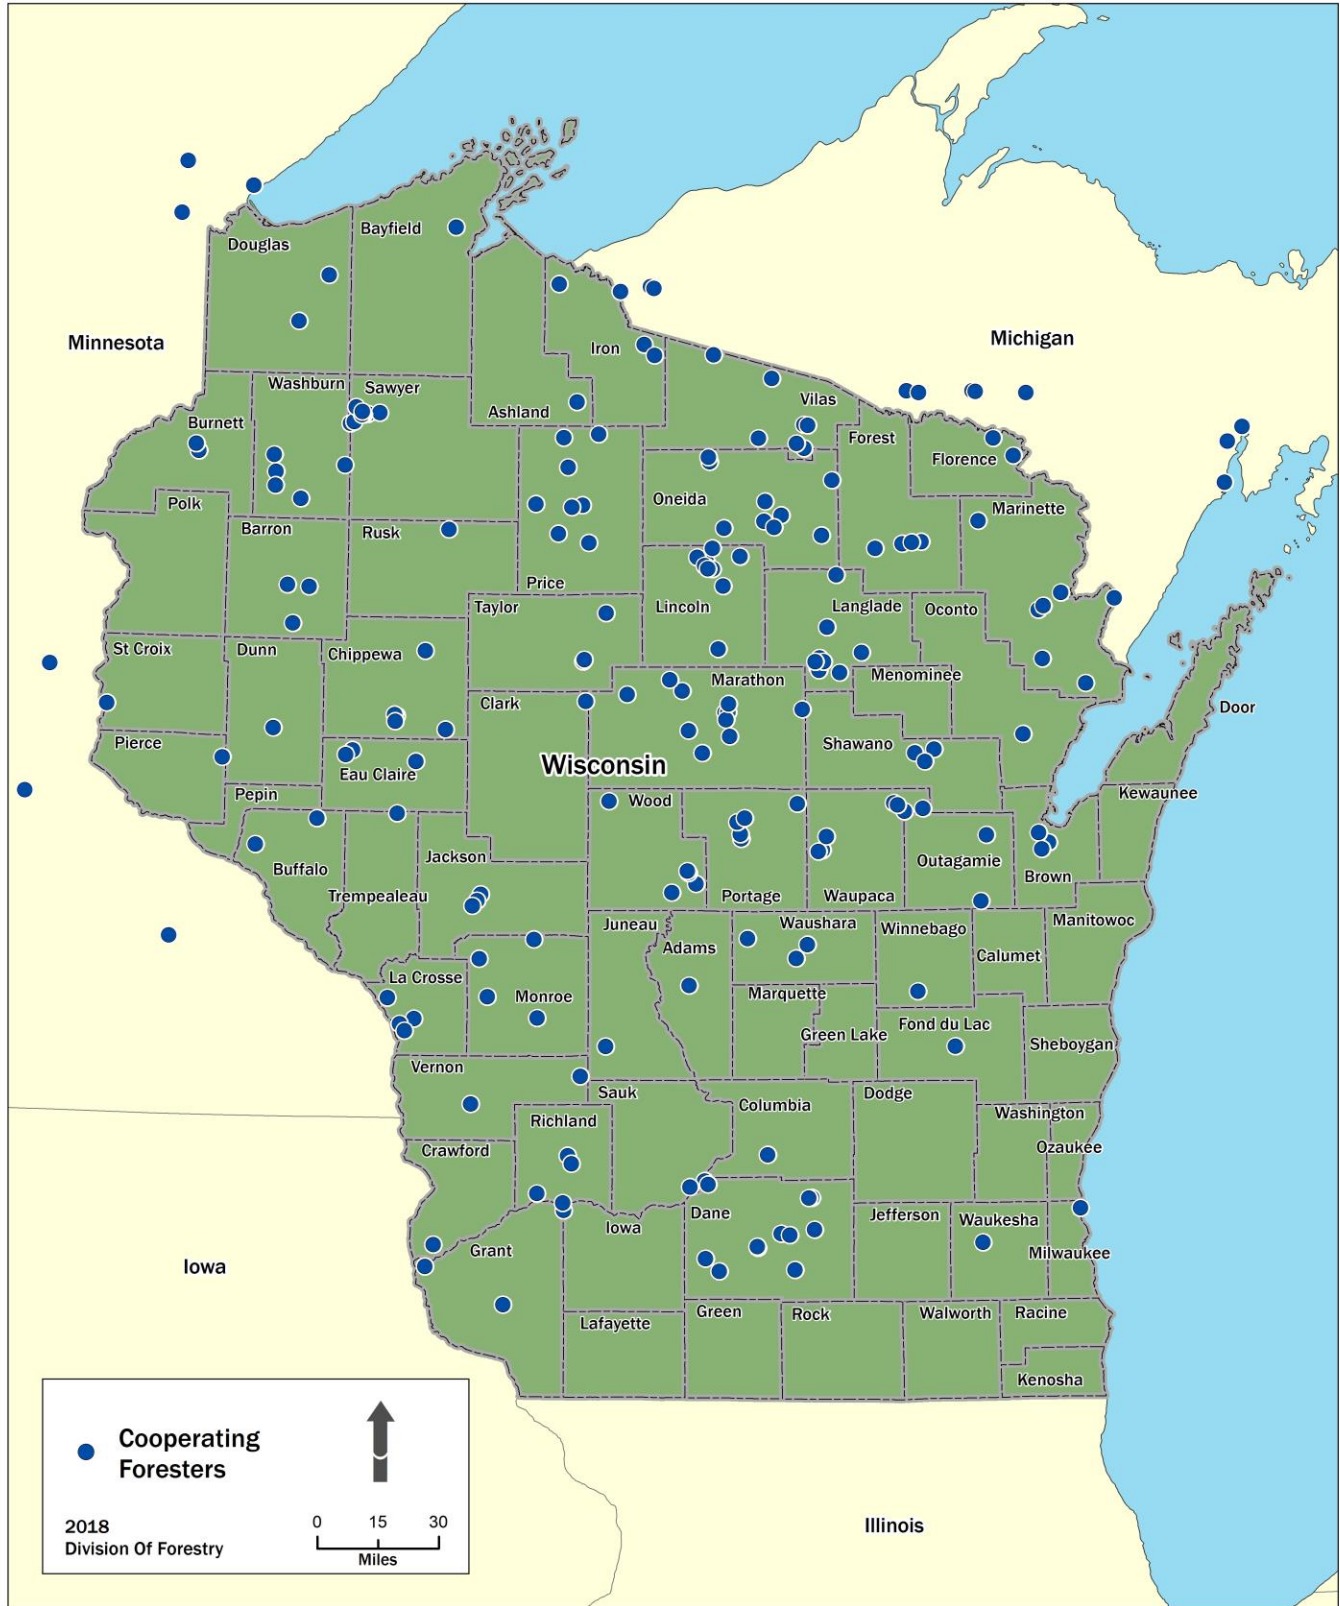

Fee schedules vary considerably among private sector consulting foresters with many offering a range of rates depending on the forestry practice, property size, travel distance and time required. For example, consulting foresters may charge an hourly rate or a daily rate; they may also have a fee schedule that is based on the number of acres involved or by the job. **Landowners are encouraged to compare costs based on different fee calculations.** Percentage based fees might also be considerably higher than fees based on other factors. Some consultants may have a minimum fee for various practices.

Industrial foresters usually do not charge a monetary fee but may request other consideration such as the right of first refusal to bid on your timber when you have a harvest.

Often, landowners wonder if the benefits of hiring a consultant are worth the costs. For many the answer is yes. Research from a number of states shows that professional forestry assistance produces higher timber sale returns and higher residual stand values with consultant fees being offset by higher values in most cases. A 2001 U.S. Forest Service survey in several Midwestern and northwestern states indicates that, on the average, landowners utilizing the services of consulting foresters doubled their timber sale revenue compared to those who did not. A Wisconsin survey found that 88 percent of the responding landowners who had hired a consultant were satisfied with the service obtained.

Cooperating Forester Locations

The data shown on this map have been obtained from various sources, and are of varying age, reliability and resolution. This map is not intended to be used for navigation, nor is this map an authoritative source of information about legal land ownership or public access. Users of this map should confirm the ownership of land through other means in order to avoid trespassing. No warranty, expressed or implied, is made regarding accuracy, applicability for a particular use, completeness, or legality of the information depicted on this map.

BEWARE OF TIMBER THEFT AND FRAUD

- Do your research to make sure your timber is ready to harvest and that it will be cut in a manner that protects the future of your forest and your investment. Consider these tips:
 - Know the value and volume of your timber before you sell it. *You wouldn't sell your car or home without knowing its value . . . your timber is no different!*
 - Contact a DNR Forester, or hire a Cooperating Forester to assist you.
 - Research logging companies or individual timber buyers by name. You can check the following websites for more information:
 - ~ Wisconsin Circuit Court: <http://wcca.wicourts.gov/index.xsl>
 - ~ Dept. of Agriculture, Trade, and Consumer Protection (DATCP): <http://datcp.state.wi.us>. You can find complaints against the individual or company, or file a complaint if not satisfied with the service you have received. You can also call: **1 (800) 422-7128**
- Take your time. Don't make snap decisions on the doorstep, selling to the first person offering you cash.
- Ask for references from other landowners who have worked with the forester or logger you are thinking of hiring. Visit previous logging jobs if possible.
- Don't rely on a logger-prepared contract. Get a contract that's designed to protect your interests! The [WWOA sample timber sale contract](#) is a good place to start. Be sure to review any contract **BEFORE** signing it.
- During the harvest, stay out of harm's way but make yourself visible. Ask questions of the logger. Who are the equipment operators and truckers? How many loads are hauled from your property and which mills are your logs being hauled to? Be careful not to interfere with the logging operation, but your presence and interest (or oversight from a Cooperating Forester) can help assure the job is done right.
- Work with loggers who are properly trained in logging safety and Wisconsin Best Management Practices. **Consider hiring a Wisconsin Certified Master Logger or a Sustainable Forest Initiative (SFI) qualified logger.**

WISCONSIN DNR FORESTERS SERVING PRIVATE LANDOWNERS

Department Foresters provide the services noted on page 4 of this directory. Most are Certified Tree Farm Inspectors and can help with that program. Statutory priorities, workload and annual work plans may limit the time available or make some of the listed services unavailable. If significant delays are anticipated, the DNR Forester may encourage you to contact a Cooperating Forester.

Keep in mind that in addition to private forestry assistance most of the foresters have other duties such as public land management or fire control. If they are in the field when you call, please leave a message so they can get back to you. In the event that the DNR forester position in your county is vacant, the local DNR Team Leader will convey your request to an acting forester. You may also leave a message for DNR or Cooperating Foresters through the on-line Forestry Assistance Locator at: <http://dnr.wi.gov>; use search keyword *'forestry assistance locator'*.

OTHER SOURCES OF GUIDANCE

AMERICAN TREE FARM® SYSTEM

The American Tree Farm System (ATFS) is committed to sustaining forests, watersheds and healthy habitats through the power of private stewardship. The ATFS has established standards and guidelines to meet in order to become a certified Tree Farm. As part of these standards, private forest owners must develop a management plan based on these standards and own 10 or more contiguous forested acres. Landowners already enrolled in an ATFS group certification program such as the Wisconsin DNR Managed Forest Law program are automatically considered certified Tree Farmers.

Private forest landowners interested in becoming a Tree Farmer can contact the Wisconsin Tree Farm Committee or your local DNR forester. If necessary, they can work with the landowner to schedule an inspection visit by an ATFS certified Tree Farm inspector at no charge to the landowner. Certified Tree Farmers can display the Tree Farm sign and are eligible to participate in the ATFS Outstanding Tree Farmer of the Year recognition program.

For information on Tree Farming in Wisconsin, contact:

Wisconsin Tree Farm Committee

COOPERATIVE DEVELOPMENT SERVICES

CDS

Cooperative Development Services
Where cooperation is at work, communities prosper.

Cooperative Development Services (CDS), a non-profit organization based in Madison, has assisted in the development of over 15 sustainable forest owner cooperatives and associations and promoted sustainable forestry practices by family woodland owners in the Upper Midwest since January of 1998. The goal of these

local initiatives is to provide family forest owners with good returns on the sale of forest products, while at the same time maintaining or improving the ecological and esthetic condition of their woods. CDS assists new and established groups of woodland owners with:

- Developing business plans
- Strategic planning
- Grant and loan procurement
- Member recruitment
- Other technical assistance

The University of Wisconsin-Extension is a source of assistance and publications about forest management, forest insect and disease pests, wildlife and many other topics of interest to landowners. Visit your local UW Extension Office, or check the UW-Extension's Woodland Assistance website: <http://woodlandinfo.org> or <http://www.facebook.com/LearnAboutYourLand>.

The sites provide information on classes (in-person and web-based) for woodland owners, interviews with landowners in WI, and a vast collection of publications. UWEX bulletins available on the web are now printable.

WISCONSIN WOODLAND OWNERS ASSOCIATION (WWOA)

WWOA is a nonprofit [501(c)(3)], educational association for private woodland owners in Wisconsin. WWOA offers year-round educational opportunities for novice and experienced private woodland owners who want to become better stewards of their woodlands. WWOA publishes the quarterly, award-winning magazine *Woodland Management* and the biannual *News from Wisconsin's Woods* newsletter. WWOA sponsors workshops, conferences, field days and a three day annual meeting each year in September. Local WWOA chapters, located throughout Wisconsin, are a great way to learn more about local issues and meet neighboring woodland owners. WWOA also has statewide committees on

Education, Government Affairs, Marketing, Science, and Publications to help keep members up-to-date on information in these areas. The WWOA Foundation is developing the Seno Woodland Education Center in SE Wisconsin as an educational facility for youths and adults. WWOA works to bridge the gap between woodland owners and natural resource professionals. Visit our website at www.wisconsinwoodlands.org to learn more or contact us for a free information packet.

WISCONSIN FORESTRY COOPERATIVES

There are currently two woodland owner cooperatives providing forestry services in Wisconsin. These cooperatives provide a range of services to members, including land stewardship education, development of woodland management plans, sustainable harvesting and marketing assistance, among others. Contact information and service areas for these cooperatives are presented below.

Kickapoo Woods Cooperative

304 South Main Street
Viroqua, WI 54665
Phone: 608-606-5815
Email: kwc@mwt.net
Website: www.kickapoowoods.org

Partners In Forestry Landowner Cooperative

6063 Baker Lake Road
Conover, WI 54519
Phone: 715-479-8528
Email: partnersinforesry@gmail.com
Website: www.partnersinforesry.com

WISCONSIN CONSULTING FORESTERS (WCF)

Wisconsin Consulting Foresters is a non-profit professional organization whose members are independent forestry consultants. We are committed to promoting forest resources through the implementation of sustainable forest management for the benefit of present and future generations.

WCF participate in the Wisconsin Department of Natural Resources Green Tier Program.  Through its environmental results charter, WCF is certified as an organization pledging to advocate sound, sustainable forestry practices and to advise landowners of the consequences of deviating from these practices. Continuing education, ethics, sound science and sustainability are important pillars for the WCF. To learn more about the WCF Green Tier Charter, please visit: <http://dnr.wi.gov>; search keyword 'Green Tier'.

MASTER LOGGER CERTIFICATION

Master Logger Certification (MLC©) is a performance-based program that formally recognizes those loggers who have attained the utmost level of training and experience, and who demonstrate an unending commitment to sound forest stewardship. It is the highest form of professional recognition for the logging sector in the state.

Not anyone can be a Master Logger. Every Master Logger applicant must meet or exceed strict performance standards that fall under seven distinct “Areas of Responsibility.” Their harvesting practices must pass a rigorous field audit and their operations must receive the unanimous approval of the Wisconsin MLC© Certifying Board. The Certifying Board is a diverse group of resource experts and stakeholders, all knowledgeable about the practice of sustainable forestry.

Once an individual becomes a Master Logger©, they must be prepared to meet the same verification standards on all of their work. This is done through annual re-certification and a complaint system that can trigger a visit from field verifiers. The purpose of this program is not just to hold loggers to a higher standard, but to provide a standard that is recognizable by forest landowners and mills. To date, 55 Master Loggers have been certified in Wisconsin, with more to follow.

Why Certification is Needed

Why is certification needed for any profession? To give clients, customers, or the general public assurances that the person performing the job has the education, training, skills, and experience to do the job correctly. Many loggers already meet all the standards and criteria of the MLC© program. The problem is they don't have a formal way to prove it. Other loggers can easily meet the requirements with slight modifications to their operations. However, some loggers will either not be able to meet the standards, or won't care to be part of the program.

The Seven Areas of Responsibility

The American Logging Council developed seven Areas of Responsibility for the nation-wide Master Logger program. Any logger wishing to become a certified Master Logger must meet or exceed strict performance standards in each of the following seven areas:

1. Water quality and soils protection;
2. Compliance with government regulations;
3. Compliance with acceptable silviculture and utilization standards;
4. Participation in an on-going training regimen;
5. Implementation of aesthetic management techniques;
6. Adherence to a site-specific management plan that is agreed to by the landowner;
7. And utilization of sound business management principles.

Information / Complaints

If you are interested in learning more about the Master Logger Program, contact the Wisconsin Master Logger Certification Program:
